

ATOLL | Executive Desk

Specifications

Executive desk with optional built-in power and data access, available in three configurations: without attached storage (ATOLL 01), with a single pedestal (ATOLL 02), or a sideboard (ATOLL 03). The marble top is defined by rounded corners and a demi-bullnose edge profile, in a honed or polished finish, with a leather inlay completing the design. The leather-upholstered modesty panel is encircled by a tubular metal frame, and the round pedestal leg is also in leather. Storage options vary by model: ATOLL 01, the stand-alone version, is supported by two terminal legs, one in wood veneer and the other upholstered in leather; ATOLL 02 features a single pedestal with four push-to-open drawers and a terminal leg in leather; ATOLL 03 has an integrated sideboard with four push-to-open drawers and a swing door, an external structure and drawer fronts in wood veneer, and lacquered interiors.

Across all models, the recessed and chamfered undertops are in lacquer, while the spacer blocks and base skirtings are in liquid-painted stainless steel. Additional options include embedded metal handles, lock systems, and leather pads for drawer bottoms.

The CONNECTA top access is finished with a 5-mm marble cover and a lacquered matt interior. A fixed profile allows for cable passage. Custom dimensions and materials available upon request.

Finishes (as shown)

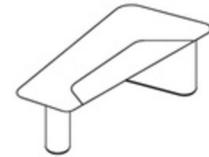

Walnut Planked
veneer
