

ALLEN | Boardroom Table

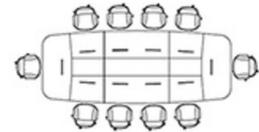

Specifications

Boat-shaped boardroom table with optional built-in monitors. The 50-mm-thick top (overall, including the finished top and undertop) is composed of central tops in leather spanning the full width of the table, bordered by perimeter tops in wood veneer. A lacquered undertop with a reverse demi-bullnose edge profile supports the upper structure.

The closed base, with soft rounded corners, has straight vertical panels in lacquered finish. The hidden structural frame is crafted from laser-cut iron and consists of top and bottom plates joined by TURADI's signature interlocking system. It is supported by square-section metal columns, with all components painted in the same color as the undertop. A 40-mm metal skirting element runs along the base, aligned flush with the floor.

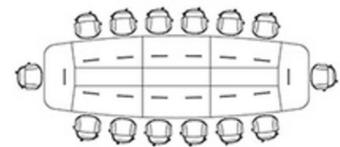

Cable management trays and device cut-outs can be integrated into the design. Removable base panels secured with clips allow easy maintenance of integrated devices.

The boardroom table is shown with DB2 17.3" by Arthur Holm. Devices not included. Custom dimensions and finishes available upon request.

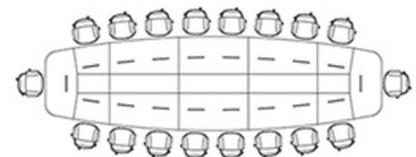

ALLEN S - 10 seats

L 530 x D 205 x H 75 cm
L 17'-5" x D 6'-9" x H 2'-6" ft-in

ALLEN M - 14 seats

L 710 x D 220 x H 75 cm
