

VEGA CLOSED | Boardroom Table

Specifications

Round boardroom table with optional built-in monitors. The 50-mm-thick top consists of a skeletal frame in wood veneer, with perimeter inserts in leather. A recessed decorative banded edge in liquid-painted stainless steel runs along the circumference of the table. The innermost tops are in wood veneer or lacquer with a round metal plate in the center. The user side of the base has curved panels in wood veneer or ribbed slats in solid ash wood. The hidden structural frame is crafted from laser-cut iron and consists of top and bottom plates joined by TURADI's signature interlocking system. It is supported by square metal columns, with all components lacquered in the same color as the undertop.

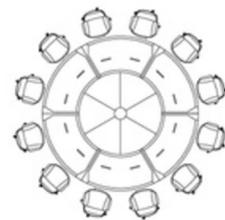

Cable management trays and device cut-outs can be integrated into the design. Removable base panels secured with clips allow easy maintenance of integrated devices.

The boardroom table is shown with DB2 10" by Arthur Holm. Devices not included. Custom dimensions and finishes available upon request.

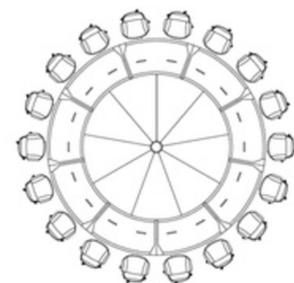

VEGA CLOSED S - 8 seats

D 240 x H 75 cm
D 7'-10" x H 2'-6" ft-in
