

AIR | Executive Desk

Specifications

Executive desk with optional built-in power and data access, available in three configurations: with double pedestals (AIR 01), a single pedestal (AIR 02), or a sideboard (AIR 03). The external structure is composed of curved wood-veneer panels, while the top features leather inlays that, in the AIR 02 and AIR 03 versions, extend continuously onto the terminal leg. The modesty panel is upholstered in leather with a metal ring at each end.

Storage options vary by model: AIR 01 features double pedestals with drawers or storage space, and a wood-veneer structure; AIR 02 features a single pedestal in wood veneer with three push-to-open drawers and a terminal leg; AIR 03 has an integrated sideboard with four push-to-open drawers and a swing door, an external structure in wood veneer, door and drawer fronts upholstered in leather, and lacquered interiors.

Across all models, the recessed and chamfered undertops are in lacquer, while the spacer blocks and base skirtings are in liquid-painted stainless steel.

Additional options include embedded metal handles, lock systems, and leather pads for drawer bottoms.

The CONNECTA top access is finished in a matching wood veneer with a lacquered matt interior. A fixed leather profile allows for cable passage. Custom dimensions and finishes available upon request.

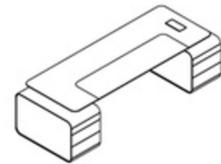

Finishes (as shown)

Planked Oak veneer

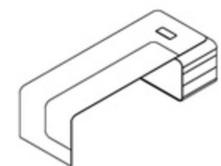

Latte leather

Champagne metal
